Innovations in Systems and Software Engineering

A NASA Journal

Managing Editor: M. Hinchey

ISSN: 1614-5046 (print version)

ISSN: 1614-5054 (electronic version)

Journal no. 11334

Springer London

1 Legal requirements

The author(s) guarantee(s) that the manuscript will not be published elsewhere in any language without the consent of the copyright owners, that the rights of third parties will not be violated, and that the publisher will not be held legally responsible should there be any claims for compensation.

Authors wishing to include figures or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Manuscripts must be accompanied by the "Copyright Transfer Statement". The form can be obtained from springeronline.com/journal/11334

2 Open Choice Publication

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular 'subscription-based' article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springeronline.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will be published as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.

3 Editorial procedure

Papers must present scientific results that are essentially new. All manuscripts are subject to peer review.

Authors should submit their manuscripts electronically as Postscript or PDF to: ISSE@gsc.nasa.gov

Manuscripts which are returned to the authors for revision should be sent back within 12 weeks; otherwise they will be considered withdrawn. Rejected manuscripts will not be returned to the authors (except for original illustrations).

Papers that do not conform to the journal norms may be returned to the authors for revision before being considered for publication.

The author is responsible for the accuracy of the references.

4 Manuscript preparation

General remarks To help you prepare your manuscript, Springer offers a LaTeX macropackage as well as a template that can be used with Winword 7 (Windows 95), 97, 2000, and Word for Macintosh. For details see point 5.

Title page The title page should include:

- The name(s) of the author(s)
- A concise and informative title
- The affiliation(s) and address(es) of the author(s)
- The e-mail address, telephone and fax numbers of the communicating author

- Acknowledgments of funding and grants (if any)

Abstract. Each paper must be preceded by an abstract presenting the most important results and conclusions in no more than 300 words.

Keywords. *Three to six* keywords should be supplied after the Abstract for indexing purposes.

Abbreviations Abbreviations should be defined at first mention in the abstract and again in the main body of the text and used consistently thereafter.

A list of symbols should follow the abstract if such a list is needed. Symbols must be written clearly. The numbering of chapters should be in decimal form. The international system of units (SI units) should be used.

Essential footnotes to the text should be numbered consecutively and placed at the bottom of the page to which they refer.

Footnotes on the title page are not given reference symbols. Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).

Acknowledgements. These should be as brief as possible. Any grant that requires acknowledgement should be mentioned. The names of funding organizations should be written in full.

Funding. Authors are expected to disclose any commercial or other associations that might pose a conflict of interest in connection with submitted material. All funding sources supporting the work and institutional or corporate affiliations of the authors should be acknowledged.

Appendix. If there is more than one appendix, they should be numbered consecutively. Equations in appendices should be designated differently from those in the main body of the paper, e.g. (A1), (A2) etc. In each appendix equations should be numbered separately.

References The list of References should only include works that are cited in the text and that have been published or accepted for publication. Personal communications should only be mentioned in the text. If available the DOI can be added at the end of the reference in question.

Citations in the text should be identified by numbers in square brackets. References should be *numbered in the order in which they appear* in the text and listed in *numerical order*. Journal titles should be abbreviated. References with correct punctuation should be styled as follows:

Journal articles:

Green T, Black J, Blue W (2004) Title of article. Abbreviated journal title Vol No: page-page

Books:

Green T, Black J (2004) Book title. Publisher, location

Multiauthor books:

Blue W (2004) Chapter title. In: Green T, Black J (eds) Book title. Publisher, location, pp 1-50

References such as "personal communications" or "unpublished data" cannot be included in the

reference list, but should be mentioned in the text in parentheses: this also applies to papers presented at meetings but not yet published or accepted for publication. A date should be given for both "personal communications" and "unpublished data".

Papers which have been accepted for publication should be included in the list of references with the name of the journal and "in press".

Oral communications should only be mentioned in the acknowledgements.

A paper published online but not (yet) in print can be cited using the **Digital Object Identifier (DOI)**. The DOI should be added at the end of the reference in question.

Example: Ward J, Robinson PJ (2004) How to detect hepatocellular carcinoma in cirrhosis. *Eur Radiol* DOI 10.1007/s00330-004-1450-y

Illustrations and Tables

All figures (photographs, graphs or diagrams) and tables should be cited in the text, and each numbered consecutively throughout. Lowercase letters (a, b etc.) should be used to identify figure parts. If illustrations are supplied with uppercase labeling, lowercase letters will still be used in the figure legends and citations.

Line drawings. Please submit good-quality prints. The inscriptions should be clearly legible.

Half-tone illustrations (black and white and color). Please submit well-contrasted photographic prints with the top indicated on the back.

Plates. Several figures or figure parts should be grouped in a plate on one page.

Figure legends must be brief, self-sufficient explanations of the illustrations. The legends should be placed at the end of the text.

Tables should have a title and a legend explaining any abbreviation used in that table. Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).

For **color illustrations** the authors will be expected to make a contribution (£ 308, plus VAT) towards the extra costs, irrespective of the number of color figures.

5 Electronic submission

Text and figures must be sent as separate files
Technical instructions for preparing your manuscript

Text

This journal accepts either LaTeX or Word documents.

LaTeX: The electronic version should include the original source (including all style files and figures) and a PostScript or PDF version of the compiled submission. Authors who prepare their papers with LaTeX are encouraged to use Springer's macro package for this journal, available at springeronline.com/journal/11334

Word: A template is available:

→ **via ftp:**

Address: [ftp.springer.de](ftp://ftp.springer.de)

User ID: ftp

Password: your own e-mail address

Directory: /pub/Word/journals

File names: sv-journ.zip or sv-journ.doc and sv-journ.dot

→ **via browser:**

<ftp://ftp.springer.de/pub/Word/journals>

File names: sv-journ.zip or sv-journ.doc and sv-journ.dot

Word: A template is available:

→ **via ftp:**

Address: ftp.springer.de

User ID: ftp

Password: your own e-mail address

Directory: /pub/Word/journals

File names: sv-journ.zip or sv-journ.doc and sv-journ.dot

→ **via browser:**

ftp://ftp.springer.de/pub/Word/journals

File names: sv-journ.zip or sv-journ.doc and sv-journ.dot

Layout guidelines

1. Use a normal, plain font (e.g., Times Roman) for text.
 - Other style options:
 - for textual emphasis use *italic* types.
 - for special purposes, such as for mathematical vectors, use **boldface** type.
2. Use the automatic page numbering function to number the pages.
3. Do not use field functions.
4. For indents use tab stops or other commands, not the space bar.
5. Use the table functions of your word processing program, not spreadsheets, to make tables.
6. Use the equation editor of your word processing program or MathType for equations.
7. Place any figure legends or tables at the end of the manuscript.
8. Submit all figures as separate files and do not integrate them within the text.

■ Illustrations

The preferred figure formats are EPS for vector graphics exported from a drawing program and TIFF for halftone illustrations. EPS files must always contain a preview in TIFF of the figure. The file

name (one file for each figure) should include the figure number. Figure legends should be included in the text and not in the figure file.

- **Scan resolution:** Scanned line drawings should be digitized with a minimum resolution of 800 dpi relative to the final figure size. For digital halftones, 300 dpi is usually sufficient.
- **Color illustrations:** Store color illustrations as RGB (8 bits per channel) in TIFF format.
- **Vector graphics:** Fonts used in the vector graphics must be included. Please do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size.

Data formats

Save your file in two formats:

1. Text: RTF (Rich Text Format) or Microsoft Word compatible formats
Figures: EPS or TIFF.
2. PDF (a single PDF file including text, tables and figures). Make sure that all fonts are embedded.

■ General information on data delivery

Please send a zip file (text and illustrations as separate files) to: ISSE@gssc.nasa.gov either: Please always supply the following information with your data: journal title, operating system, word processing program, drawing program, image processing program, compression program.

The file name should be memorable (e.g., author name), have no more than 8 characters, and include no accents or special symbols. Use only the extensions that the program assigns automatically.

6 Electronic supplementary material

Electronic supplementary material (ESM) for an article in the journal will be published in SpringerLink provided the material is:

- submitted to the Editor(s) in electronic form together with the paper and is subject to peer review
- accepted by the journals Editor(s)

- ESM may consist of
- information that cannot be printed: animations, video clips, sound recordings
 - information that is more convenient in electronic form: sequences, spectral data, etc.
 - large original data that relate to the paper, e.g. additional tables, illustrations (color and black & white), etc.

After acceptance by the journals Editor(s) ESM will be published as received from the author in the online version only. Reference will be given in the printed version.

7 Proofreading

Authors should make their proof corrections on a printout of the pdf file supplied, checking that the text is complete and that all figures and tables are included. After online publication, further changes can only be made in the form of an Erratum, which will be hyperlinked to the article. **The author is entitled to formal corrections only. Substantial changes in content, e.g. new results, corrected values, title and authorship are not allowed without the approval of the responsible editor. In such a case please contact the Editor-in-Chief before returning the proofs to the publisher.**

8 Offprints, Free copy

25 offprints of each contribution are supplied free of charge. If you wish to order additional offprints you must return the order form with the corrected proofs. You are then entitled to receive a pdf file of your article for your personal use.
